

MULTITOUCH TABLES LINE-UP

55" + 65"

The AVR SLIM 4K MultiTouch Table is an interactive table solution to be used at events, trade shows, in museums or retail stores. The light and modern design perfectly fits into any areas. Thanks to the optional PC integrated inside of the screen, no cables are visible. The AVR SLIM Table boasts 4K resolution, impressive image quality and state-of-the-art InGlass Touch sensor; it pulls us into the new digital age, creating an elegant environment.

55" + 65"

The AVR EDGE 4K MultiTouch Table has the same flexibility and features of the AVR SLIM 4K. This model shares the exceptional industrial design and state-of-the-art InGlass Touch sensor. Thanks to its larger internal space, it is possible to store a powerful PC Workstation directly inside of the table body. The AVR EDGE 4K is the best tool to aid you in any complex project.

84"

The AVR GIANT 4K MultiTouch Table offers the largest surface possible, to attract visitors in exhibitions, museums, showrooms or any other public space. The ruggedized construction, made from aluminium, in combination with brilliant image quality and a reliable touch recognition makes it the industry leading multi touch device. As standard, this monitor is equipped with an ultra smooth safety glass and meant for continuous operation, up to 24 hours a day.
